

E-Commerce Business Performance Analysis

Presented by Radisha Fanni Sianti

About Me

"I am a fresh graduate of Master of Statistics and Bachelor of Mathematics from Institut Teknologi Sepuluh Nopember. I have a passion for continuing to learn and develop myself by constantly trying to broaden my knowledge in statistics and other related disciplines. I'm enthusiastic about deriving valuable insights from data and leveraging them to facilitate well-informed decision-making."

Background

In a company, measuring business performance is very important to monitor and assess the success or failure of various business processes. Therefore, this project will analyze the business performance of an eCommerce company, taking into account several business metrics, namely user growth, product quality, and payment types.
